

## Blue Pearl : A One World Oratorio – Demo Recording

Please be aware that this demo recording is only intended to give a reasonable impression of the piece. It has been made with very little time and financial resources; with a synthetic version of the orchestra part; and with individual singers in place of a choir. When you listen, please bear this in mind. You will probably need to occasionally adjust the volume between tracks as you listen. The piece will ultimately be performed by a reasonably large choir, and a real orchestra.

I am very grateful to the professional singers who contributed so enthusiastically to the demo recording of *Blue Pearl* with almost no rehearsal time:

Josie Walledge—solo and choir soprano, solo and choir alto  
Jennifer Kestis Ferguson—solo soprano, *Be Still*  
Alison Burnett—solo and choir alto for some movements  
Brian Northcott—choir and solo tenor for some movements  
Julian Rippon—solo and choir bass for some movements  
Steve Banks—solo and choir bass for some movements

And to Simon Gregg, who gave initial help with recording and mixing.
